

# ANIMAL FARM CHAPTERS 3-6

## Chapter 3:

The animals work together to establish the self-managed farm. Boxer, the horse, becomes the most dedicated worker, adopting the motto "*I will work harder.*" Weekly meetings are held where the pigs, especially Snowball and Napoleon, lead decision-making. Snowball organizes committees to improve life on the farm, while Napoleon focuses on educating the puppies, whom he secretly takes away to train. However, disputes begin to arise between Snowball and Napoleon.

---

## Chapter 4:

News of the rebellion spreads to other farms, worrying the humans. Mr. Jones attempts to reclaim Animal Farm with the help of other farmers, but the animals, led by Snowball, defeat them in the Battle of the Cowshed. Snowball becomes a hero, earning the admiration of the others. Meanwhile, Napoleon shows little interest in the battle but begins consolidating his power.

---

## Chapter 5:

Tensions between Snowball and Napoleon increase. Snowball proposes building a windmill to improve life on the farm, but Napoleon opposes it. When Snowball is about to convince the animals, Napoleon uses the dogs he secretly trained to expel him from the farm. From that moment on, Napoleon declares himself the absolute leader, eliminating democratic meetings and establishing an authoritarian regime.

---

## Chapter 6:

The animals work harder than ever, especially on the construction of the windmill, although their lives become more difficult. Napoleon begins trading with humans, despite previously considering it against the principles of the rebellion. The pigs start enjoying more privileges and modify the farm's rules to justify their actions. When the windmill is destroyed in a storm, Napoleon blames Snowball and uses this as a pretext to increase his control.
